

# 2024 Special Rewards Program

Getting needed care is important to your foster child's health. The Department of Child Services requires that foster children regularly seek preventive care.

## How to earn a reward

We make it easy for you:

- 1 Complete all activities that apply. See below for details.
- 2 We receive verification that these activities were completed.
- 3 We send you a gift card.

## 2024 Hoosier Care Connect Rewards for Foster Children

Earn **\$150 in gift cards** when your foster child completes all activities on the below checklist:

- Complete a Health Needs Screening. This is a brief survey that takes only a few minutes to complete. Call Member Services and ask to complete your HNS.
- Connect with a Care Manager at UnitedHealthcare and complete a detailed health assessment. This will help us connect you with additional support and services that benefit your foster child.
- Visit the dentist twice a year. This credit is earned after the first visit has been completed.
- Take your foster child to see their primary medical provider (PMP) for a well visit or check-up.

Members in foster care who turn 13 years old during 2024 can also earn an additional **\$50 gift card**:

Get your foster child immunized. One dose of Tdap, meningococcal, and complete human papillomavirus vaccines by the child's 13th birthday.

## Keep your address up to date

We need a good mailing address when we send a gift card.

## Questions?

Call Member Services at 1-800-832-4643. We are available Mon-Fri, 8 a.m. to 8 p.m. Eastern Time. TTY users may dial 711. You can also visit [myuhc.com/communityplan](https://myuhc.com/communityplan) to learn more about our 2024 Special Rewards Program.
