FALL 2019

Trick or treat.

According to the Centers for Disease Control and Prevention, most Americans eat and drink too many added sugars. When passing out Halloween treats this fall, consider snacks such as pretzels, popcorn, sugar-free gum and trail mix. These are healthier options than candy.

Fight the flu.

Get a flu vaccine this season.

The flu virus is very common. An annual flu shot is the best protection. Everyone aged 6 months and older should get one each year. You need to get a flu shot every year because each flu season is different.

Here are 3 other things you can do this fall to keep from getting the flu:

- Wash your hands often with soap and water.
- Eat well, exercise, drink lots of water and get enough sleep.
- Cover your nose and mouth when you cough or sneeze.

It's your best shot. There is no cost to you for flu shots.

The best place to get one is at your primary care provider's (PCP's) office. You can also get one at any clinic or store that accepts your plan. Visit myuhc.com/CommunityPlan to find a location near you.

Controlling asthma.

Asthma is a disease that affects the lungs and airways. It causes serious coughing and wheezing. Children and adults with asthma can get help from their doctor. Medication can help control daily symptoms.

Sometimes, even with medication, a person can have a severe asthma attack. A bad attack makes it difficult to breathe. This could become an emergency.

To control your asthma, learn what can trigger an attack.

- **Exercise.** Some people only have attacks after vigorous physical activity.
- **Airborne irritants.** Things in the air, such as pollen, dust mites, smoke or pet dander.
- **Cold or dry air.**
- **Catching a common cold or the flu.**

Develop an asthma action plan. Talk to your doctor about the best way to prevent or manage attacks. You might need to add quick-relief medications or use an inhaler.

We can help. We have disease management programs. They help people with asthma, diabetes and other conditions. Call Member Services toll-free at **1-800-903-5253, TTY 711**, to learn more.

Mammograms save lives.

Schedule your screening.

Breast cancer is one of the most common cancers in women. An estimated 268,600 U.S. women will be diagnosed with it this year.

October is breast cancer awareness month. It is a good time to schedule a mammogram if you are due for one. A mammogram is an X-ray of the breast. It is used to find breast cancer early, before you notice a lump. When caught early, breast cancer is often curable.

Talk to your doctor about your breast cancer risk factors. These include your family and personal health history, ethnicity and lifestyle. The American Cancer Society recommends annual mammograms for women starting at age 40 or 45, depending on risk. Then mammograms every 2 years beginning at age 55. Women at high risk may continue annual screenings after age 55.

Are you at risk? Talk to your doctor about your risk factors for breast cancer. For help scheduling an appointment or finding a provider, call Member Services toll-free at **1-800-903-5253, TTY 711**. Or visit myuhc.com/CommunityPlan.

Plan to quit.

Tobacco use is the largest preventable cause of disease and death. There is no safe way to use tobacco. If you use tobacco, consider quitting during the Great American Smokeout®, a national event hosted by the American Cancer Society. This year the event falls on November 21.

Quitting time? You can quit smoking for good with the right help. Get telephone support and information by calling the Michigan Tobacco Quitline at **1-800-784-8669, TTY 711**. Or get free help online at michigan.quitlogix.org/en-US/.

Let it go.

It's perfectly natural to feel stressed sometimes. Everyone does. Not all stress is bad, but long-term stress can affect your health. That's why it's important to manage it. Here are 4 tips on how to cope with stress:

- 1. Get regular exercise.** Just 30 minutes per day of walking can help boost your mood and reduce stress.
- 2. Try a relaxing activity.** Meditation, yoga and tai chi can be relaxing. Drawing or coloring can also be calming.
- 3. Set goals and priorities.** You don't need to do everything at once. Decide what needs to be done now and what can wait.
- 4. Stay connected.** It's OK to turn to friends, family or health care providers for emotional or other support.

Relax. To learn about your behavioral health benefits, call Member Services toll-free at **1-800-903-5253, TTY 711**.

Growing up.

Teach teens to take charge of their health.

Teenagers can start learning to be health care consumers. Parents can teach their teens health care skills such as:

- Making medical and dental appointments.
- Writing a list of questions to ask at appointments.
- Talking with the provider.
- Filling out forms.
- Understanding medications.

Helping teens become involved with their care can be both challenging and rewarding. It can help teens build self-esteem, increase confidence and become more independent. It can also improve their experience with medical providers now and into adulthood.

Teens have different health care needs than children. Your teen may be ready to switch from a pediatrician to a primary care provider who treats adults. Your daughter may need a woman's health provider such as an OB/GYN.

We can help. UnitedHealthcare Community Plan can help your teen choose the right provider. Call Member Services toll-free at **1-800-903-5253, TTY 711**. Or visit myuhc.com/CommunityPlan.

Game day recipe.

A heart-healthy chili in just 30 minutes.

Your food choices play a big role in your overall health. Good nutrition is an important part of leading a healthy lifestyle. Try making this heart-healthy chili for a tasty game day meal. You can add a chopped jalapeño pepper for extra spice. Or you can add toppings such as low-fat grated cheese, a sliced avocado or chopped green onions for added flavor and texture.

Ingredients.

- 1 lb. 95% lean ground turkey
- 15.5 oz. canned, no-salt-added or low-sodium pinto or kidney beans, rinsed, drained
- 1 medium onion, chopped
- 1 medium green bell pepper, chopped
- 4 cloves fresh garlic, minced
- 14.5 oz. canned, no-salt-added or low-sodium diced tomatoes (undrained)
- 1 Tbsp. chili powder
- 1 Tbsp. ground cumin
- ½ tsp. ground coriander
- ¾ cup jarred salsa (lowest sodium available)

Instructions.

1. Spray a large saucepan with cooking spray. Cook ground turkey and onion over medium-high heat for 5–7 minutes, stirring constantly to break up meat.
2. Stir in bell pepper, garlic, chili powder and cumin, and cook for 5 minutes, stirring occasionally.
3. Add remaining ingredients and bring to a boil. Reduce to a simmer, cover and cook for 20 minutes.
4. Optional: Serve topped with low-fat grated cheese, a dollop of fat-free sour cream, sliced avocado, snipped cilantro or chopped green onions.

Serves 4.

UnitedHealthcare Community Plan does not treat members differently because of sex, age, race, color, disability or national origin.

If you think you were treated unfairly because of your sex, age, race, color, disability or national origin, you can send a complaint to: Civil Rights Coordinator

UnitedHealthcare Civil Rights Grievance

P.O. Box 30608

Salt Lake City, UTAH 84130

UHC_Civil_Rights@uhc.com

You must send the complaint within 60 days of when you found out about it. A decision will be sent to you within 30 days. If you disagree with the decision, you have 15 days to ask us to look at it again.

If you need help with your complaint, please call the toll-free member phone number listed on your health plan member ID card, TTY 711, Monday through Friday, 8:30 a.m. to 5:30 p.m.

You can also file a complaint with the U.S. Dept. of Health and Human Services.
